SURVEY: GLOBAL MATRIX 4.0 POST-RELEASE MEETING AGENDA

Summary of results

The survey was open from 9.09.2022 to 16.06.2022 and was completed by 55 respondents.

Suggested additions to the Global Matrix 4.0 post-release meeting agenda

- o Spain experiment (jurisdictions within a country)*
- o Para/Disability supplement*
- o Dissemination and communication*
- o Exploring funding opportunities for low-income countries (*falls under 2c, iii*)
- o Publication rules, future publications (*falls under 3e and 4f*)
- o Collaborative Research Agenda to conduct a primary study on Global Matrix indicators
- o Potential opportunities for data merge (big data?) and analysis including all participating countries to produce a collection of papers like the PA lancet series
- o Sharing Canadian experiences on Adult Report Card, future plans for the global initiative on Adult Report Cards
- o Use of the overall grade and stratified grades according to gender, age group, disability, etc
- o Creation of a capacity-building hub for the AHKGA*
- o A webinar about grading the Government Indicator using Ward et al. method
- o Adding additional indicators directly related to the changing climate (e.g., air pollution) or specifying in benchmark for Community and Environment given its emerging importance in relation to PA (*falls under 2c, ii*)
- o Any other business*
- o Closing the gaps

Note: Due to the time limits for the post-release meeting, several suggestions (marked *) have been added to the agenda while some are parked for discussion/webinars at a later date.

Other concerns and suggestions

- o Circulate an email to the Report Card leaders prior to the conference asking about interest in the Global Matrix 5.0 – to have information for the meeting, including from those who are not in attendance
- o Busy agenda and not much time, particularly if trying to allow for the voice of those who attend remotely/virtually
